Typical Applications:

Utilizing L21-20 extensions, these compact assemblies are interconnected to become part of a temporary power distribution system. Systems may feed any number of electrical devices up to the full 20A rating of any phase. The overall length and complexity of the system is determined by the lengths and quantities of the extensions used as well as the types of outlet connectors chosen. With an inventory of Mod-Ts and L21-20 extensions, the user can meet the power needs of almost any Entertainment system.

Markets Served:

Theatrical, Concert, Touring, Live Event, Studio, Locations
